▲ **MICROFLEX® NEOPRO®**
POWDER-FREE CHLOROPRENE EXAMINATION GLOVES

OUR BEST PREMIUM LATEX OFFERING

NeoPro® gloves' unique chloroprene blend provides a secure protection against a variety of chemicals with excellent puncture resistance. The textured fingertips and soft, latex-like feel gives these gloves a secure grip in wet environments.

- Provides enhanced protection against a broad chemical array
- Chloroprene has better puncture resistance than latex
- Ideal for use in wet environments
